School iP

CASE STUDY

Carolyn Bailey, Principal, Sheikh Zayed Private Academy for Girls

AT A GLANCE

PREVIOUS CHALLENGES

- Evaluating the school
- Capturing evidence
- Strategic focus
- Saving time

CURRENT BENEFITS

- Single central solution
- Easy access for all
- Robust evidence storage
- Simple to use

OVERVIEW

The Sheikh Zayed Private Academy for Girls is an exclusive and highly successful school, located in Abu Dhabi in the United Arab Emirates (UAE). They provide an environment where students flourish academically and socially in their rich, vibrant and happy community.

IMPACT

Carolyn stated "SchooliP has been a big part of our school development journey in the last 18 months. It has really helped us to re-think how we evaluate ourselves, capture evidence and constantly drive toward our key goals in an easy-to-use and timeefficient manner."

Carolyn added "Like all schools, we already had robust systems in place, but SchooliP helped us to harmonise those into one central place and provide easy access to everyone. It helped us to get things off saved drives and make sure everyone knows exactly where to look and how to store evidence. The amount of evidence at senior leaders' fingertips to evidence progress and action for any part of our SDP, SEF and quality assurance programs is now far more readily available and all teachers contribute in a way that is really easy for them too."

> "SchooliP has really helped us to re-think how we evaluate ourselves, capture evidence and constantly drive toward our key goals in an easyto-use and time-efficient manner."
