IMPACT

Jenny stated "SchooliP provides a clear vision and is a mechanism for managing performance. It is robust, but not onerous. SchooliP works well for multi-sites where staff have more than one manager. It is great how SchooliP provides a secure platform where users only see the information that is relevant to them."

Jenny also added that "At our last Ofsted inspection, they said it felt like we were just one school. SchooliP has been a huge factor in this."
