EDUCATION

What is SchooliP?

SchooliP is a cloud-based solution designed to enhance the efficiency and effectiveness of educational institutions. It aims to streamline administrative processes, facilitate strategic planning, and foster a culture of continuous improvement among staff and students.

SchooliP ensures that all stakeholders are aligned with the school's objectives. This integration allows for clear goal-setting, efficient resource allocation, and ongoing monitoring of progress, ultimately contributing to enhanced educational outcomes.

There are 6 key features contained within SchooliP, they are comprised of:

Performance Management

Professional Development

Self-Evaluations

Policy Management

Improvement Planning

School-Wide Audits

For your School

We understand that every independent school operates differently. That's why our platform offers extensive customisation options to ensure it aligns with your specific requirements. With flexible settings and configurable tools, you can create a solution that truly fits your school's improvement strategy.

1 Custom Workflows & Monitoring Forms

Design and implement workflows that reflect your school's internal processes, ensuring seamless alignment with your strategic objectives. Tailor monitoring forms to capture key performance indicators, observations, and evaluations specific to your school's framework.

### 2 Personalised Colour Scales & Terminology

Ensure consistency and clarity by customising rating scales, colour indicators, and terminology across the platform. Whether aligning with ISI, Ofsted, or your own internal standards, you have full control over how progress is measured and communicated.

3 Bespoke Reporting & Dashboards

Generate real-time reports that provide insights tailored to your leadership team's needs. Customise dashboards to highlight critical areas, ensuring a clear overview of school improvement, staff development, and compliance at a glance.

4 Flexible Integration & Data Management

Our platform seamlessly integrates with your existing management systems (MIS), enabling smooth data flow across platforms. With flexible data fields and export options, you can structure information in a way that best supports your school's operations.

With these advanced customisation features, our platform ensures that your school improvement journey is tailored, efficient, and aligned with your institution's unique goals.

ISI with SchooliP

SchooliP seamlessly manages the ISI framework by providing a structured approach to self-evaluation and compliance. Schools can use the platform to gather departmental responses on progress, ensuring a collaborative review process across all key areas.

These responses can be linked directly to action plan objectives, creating a clear pathway for continuous improvement. Additionally, SchooliP allows users to store evidence against each section of the framework, ensuring that all documentation is easily accessible and audit-ready. This streamlines the inspection process, making it easier to demonstrate compliance and showcase ongoing development.

who uses
School iP

SchooliP is used by over 700 schools and academies to seamlessly manage their school improvement.

Vicki Nelson
Babington House School

"All lesson observations are done within SchooliP, so there is less duplication. The forms have been imported into the system so it supports the performance management process of the school. Both the team leader and the teacher can see the details"

"School data reports are excellent, I can track the progress of probations, performance management and the outcome of lesson observations"

"The system is so easy to use, it has been set up to mirror our performance management process, it aligns with our policies and the support team are incredibly helpful."

Emma Thelwell
Prestfelde School

"Since starting to use SchooliP our whole school development of staff has improved greatly, enabling them to take a lead in their own professional development, whilst also supporting the whole-school development and vision."

"SchooliP also helps to provide school data like CPD costings, observations, and development plan focus"

"It also helps to reduce teacher workload and centralise storage electronically, so we do not have to type up observations etc."

Sadie Lapper
Tudor Hall School

"SchooliP has transformed the way our school approaches appraisal, the software allows staff to be completely in control of their professional development whilst still aligning with our school's key priorities and annual development plan."

"The platform design is excellent for line managers, allowing them to easily view all their staff in one central place making quality assurance and succession planning much easier. The ongoing customer service and help is always very valued, it makes using the system pretty seamless."

Taking the next step

If you would like to take the next step and find out more about SchooliP, please see below my contact details and a link to my diary where you can schedule a demonstration.
